Personal information

First name(s) / Surname(s) **Ejup ÇOTA**

Address(es) St. Rruga Tropoja, Durres, Albania

Telephone(s) Personal:

Mobile:

Fax(es)

E-mail ejupcota@gmail.com

Web <https://prof-ejupcota.netlify.app/>

Nationality Albanian

Date of birth 20.04.1959

Gender Male

Desired employment / Occupational field

**Retired Professor on Plan Protection and Consultant
Insect Taxonomy, Insect Ecology and Behaviour, Agricultural Entomology, Biodiversity and Invasive Species**

Work experience 1

FULL TIME & FREE LANCE

Dates May 2024 – Actually

I am a retired university professor and independent researcher in Biological Sciences, with a long-standing interest in entomology.

August 2007 – May 2024

Occupation or position held Lecturer and researcher in Plant Protection Department, Agricultural University of Tirana

Main activities and responsibilities Lectures of Agricultural Entomology, Biological control, Integrated Pest Management, Basics of Applied Agricultural Zoology, Vectors of Plant Pathogens, Insect Pathology, DNA Barcoding for Insect Identification

Name and address of employer Plant, Protection Department, Faculty of Agriculture and Environment, Agricultural University of Tirana, Koder-Kamez, Tirane.

Type of business or sector Education and Scientific research

Dates 01/08/1983 – 31/07/2007

Occupation or position held Entomology Section, Plant Protection Institute, Durres

Main activities and responsibilities Researcher and Plant Protection Service

Name and address of employer Plant Protection Institute ,Shkozë, Durres

Type of business or sector Public Institution

Education and training 2

Dates	2002
Title of qualification awarded	Postgraduate Studies. Research Program for carrying out Ph.D.
Principal subjects/occupational skills covered	Study of aphid fauna on deciduous fruits orchard (apple, pear and quince) and their natural enemies
Name and type of organisation providing education and training	Agricultural University of Tirana
Level in national or international classification	National
Dates	2011
Title of qualification awarded	Training course for IT farming in Albania. June-July 2011. Tirana Albania.
Principal subjects/occupational skills covered	Implementation of IT farming in Albania
Name and type of organisation providing education and training	FAO with trainers from Agricultural University of Tirana and local experts of agriculture in Albania
Level in national or international classification	National
Dates	2007
Title of qualification awarded	SIAB Project "Strengthening of services to farms and institutional support for the development of Organic Agriculture.
Principal subjects/occupational skills covered	Training Course on "Biological Control" of pests and diseases
Name and type of organisation providing education and training	European Commission Adriatic Cross Border INTERREG IIIA. CHIEAM (IAM-Bari) Italy
Level in national or international classification	International
Dates	2005
Title of qualification awarded	Training course Strengthening of Veterinary and Phytosanitary Border Inspection in Albania". Tirana and Greece 2005
Principal subjects/occupational skills covered	Strengthening of Veterinary and Phytosanitary Border Inspection in Albania"
Name and type of organisation providing education and training	Ioannina, Greece
Level in national or international classification	International
Dates	2005
Title of qualification awarded	Training course "Quarantine Phytosanitary Inspection" in the framework of CARDS Project of EU, Tirane 2005
Principal subjects/occupational skills covered	Quarantine Phytosanitary Inspection
Name and type of organisation providing education and training	CARDS Project of EU, Tirane 2005
Level in national or international classification	International
Dates	2000
Title of qualification awarded	International training for "Diagnosis of plant parasites". February 2000
Principal subjects/occupational skills covered	Diagnosis of plant parasites
Name and type of organisation providing education and training	Plant Protection Service in Wageningen, The Netherlands
Level in national or international classification	International

Dates	1999
Title of qualification awarded	A training course for "Monitoring of <i>Diabrotica virgifera virgifera</i> , Le Conte by using the pheromone traps

Principal subjects/occupational skills covered	Monitoring of <i>Diabrotica virgifera virgifera</i> , Le Conte by using the pheromone traps										
Name and type of organisation providing education and training	Plant Protection Institute, Hungarian Academy of Science, Budapest Hungari										
Level in national or international classification	International										
Dates	1999										
Title of qualification awarded	A training course of 3 months, Some update methods on identification of insect pests, mainly on Aphids, Thrips and whitefly										
Principal subjects/occupational skills covered	Some update methods on identification of insect pests, mainly on Aphids, Thrips and whiteflies										
Name and type of organization providing education and training	Plant Protection Service, Entomology Section, The Netherlands										
Level in national or international classification	International										
Dates	1998										
Title of qualification awarded	Training course for "Identification of insect pest":										
Principal subjects/occupational skills covered	- Identification of Scale insects, Aphididae, Coleoptera, Lepidoptera, Diptera, Hymenoptera, Thysanoptera, Symphyta, Acari. - Methods for monitoring of insect pests. Methods of collection and preparation (aphids and whitefly)										
Name and type of organisation providing education and training	Plant Protection Service, Entomology Section, The Netherlands										
Level in national or international classification	International										
Dates	1997										
Title of qualification awarded	Training course in Ankara University for "Identification of scale insects"										
Principal subjects/occupational skills covered	Identification of scale insects										
Name and type of organisation providing education and training	Ankara University, Plant Protection Department, Ankara, Turkey										
Level in national or international classification	International										
Dates	1996										
Title of qualification awarded	Training course for Protection of Grapevine in CHIEAM (IAM, Bari)										
Principal subjects/occupational skills covered	Protection of grapevine from pests and diseases										
Name and type of organisation providing education and training	Mediterranean Institute of Agronomy CHIEAM (IAM, Bari), Italy										
Level in national or international classification	International										
Personal skills and competences											
Mother tongue(s)	Albanian										
Other language(s)											
Self-assessment		Understanding				Speaking				Writing	
<i>European level (*)</i>		Listening		Reading		Spoken interaction		Spoken production			
English		C2	Proficient user	C2	Proficient user	C2	Proficient user	C2	Proficient user	C2	Proficient user
Russian		A2	Basic user	C2	Proficient user	A2	Basic user	C2	Basic user	C2	Proficient user
Arabic		A2	Basic user	C2	Proficient user	A2	Basic user	A2	Basic user	A2	Basic user

French		A2	Basic user	A2	Basic user	A2	Basic user	C2	Basic user	A2	Basic user
	(*) <i>Common European Framework of Reference for Languages</i>										
Social skills and competences	- Good communication skills gained through my long experience. - team spirit; - good ability to adapt to multicultural environments, gained though my work experience abroad;										
Organizational skills and competences	The ability for fulfillment of the duties base on the implementation of different International and National projects in farm level. Good Management skills thanks to two year working as a Director in a state farm (1991-1993) Study on diseases, pests and weeds affecting agricultural plants and measures of controlling. (2001-2003)										
Technical skills and competences	- Develop an integrated control package for parasites of different fruit trees crops, vineyards, olive groves, citrus and arable crops. - The diagnosis of important parasites special economic and control measures against them. - The diagnosis of quarantine parasites order to prevent their entry into our country, as one of the conditions required by the EU										
Computer skills and competences	Competent on Microsoft office programs (Word, Excel, Access, PowerPoint, Publisher), Page Maker, Adobe Illustrator, Adobe In Design, Adobe Photoshop, etc										
Driving license	Category A, B, C										

Additional information	SCIENTIFIC STUDIES
	Ejup Çota. Study of biotechnology of potato tuber moth (<i>Phthorimaea operculella</i>, Zeller) and its control in store and field in lower area of Albania (1995-1996) Ejup Çota. Identification and distribution area of grasshoppers species in Albania (1996-1998) Ejup Çota. Study of aphidofauna on pome fruits orchard (apple, pear and quince) and their natural enemies (1997-1999) Ejup Çota. Monitoring of Western Corn Rootworm (<i>Diabrotica v.virgifera</i> Le Conte) in Albania (1999-2005) Ejup Çota. Monitoring and distribution of Carnation Tortrix, (<i>Cacoecimorpha pronubana</i>, Hubn) Albania by using pheromone traps. 2001-2002 Ejup Çota. Monitoring of flower thrips (<i>Frankliniella occidentalis</i>, Perg.) as a vector of tomato spotted wilt virus (TSWV) in Albania.(2000-2002) Ejup Çota. Biological control of main pest in greenhouse crops in Albania (2004) Ejup Çota. Monitoring of <i>Lobesia botrana</i> and its control by using <i>Bacillus thuringiensis var.kurstaki</i>. (2003-2006) Ejup Çota. IPM and biological control on greenhouse in Albania (2007-2008) Ejup Çota. Non-indigenous insects and their threat to biodiversity and economy in the Balkans (2006-2008) Ejup Çota. The invasive mediterranean fruit fly (<i>Ceratitis capitata</i>, Wiedemann) in Albania (2006-2007) Ejup Çota. Study the population genetics and parasitoid complex of <i>Cameraria</i> in Albania (2007 – 2009) Ejup Çota. Modelling the expansion of an urticating pest with regard to climate change in Albania (2009 2010) Ejup Çota. Study of tomato moth (<i>Tuta absoluta</i>). Biology and beviour of this pest in Albania. Ejup Çota. Monitoring and population dynamic of western corn rootworm (<i>Diabrotica v.virgifera</i>, LeConte) in Albania (2010-2011) Ejup Çota. Identification and monitoring of grape aphid (<i>Aphis illinoiensis</i>) in vineyard of Albania 2009-2011

COURSE LECTURES:

- Bases of Agricultural Applied Zoology
- Diagnose including DNA Barcoding, Biotechnology in Entomology
- Plant Protection in Agro-mechanization
- Pests and diseases of Post-Harvest
- Insect Pathology
- Applied Agricultural Entomology
- Insect vectors of plant pathogens
- Basics of Entomology and Plant-Pest Interactions
- Environment, Plant Pesticide Interaction
- Pests and Population Dynamics
- Parasites of Urban Landscape

Annexes	Participation in Projects 1. Project of SARED (Support to Agriculture and Rural Development in Disadvantaged Areas of Albania) and RASP (Rural Association Support Programme) as an Expert for Integrated Fig Production in Berat. 2016 – 2017 2. COST Action FA1405. Using three-way interactions between plants, microbes and arthropods to enhance crop protection and production. 2015-2018 3. E-COST-FP1401. A global network of nurseries as early warning system against alien tree pests (Global Warning). 2014-2018 4. Project titled: PCLIM - Creation of a Euro-Mediterranean Network multidisciplinary research on the adaptive response of Processionary moth and their associated organisms to Climate change. (2011 – 2014). 5. Project E-COST – FP 1002. Pathway Evolution and Pest Risk Management in Transport – PERMIT (2010 -2012). 6. Helvetas Swiss Intercooperation – Kosovo. (2012 – 2014). Participant as an international Expert in Project for Integrated Production of Vegetable Crops in Kosovo. 7. IPM/CRSP Project: Integrated Pest Management in Greenhouse in Albania. USAID. 2007-2008. 8. Coordinator for Albania in SEE-ERA.NET Pilot Joint Call Projects: Study the population genetics and parasitoid complex of <i>Cameraria</i>. (2007 - 2008) 9. DAISIE (Delivering of Alien Invasive Species Inventories for Europe) Project. Building of a database of alien insects species on European level. 2005-2008. 10. SCOPES Project (Scientific Co-operation between Eastern Europe and Switzerland) Project Title: "Non-indigenous insects and their threat to biodiversity and economy in the Balkans". (2005 – 2007). 11. Project ECO-NET 2009 – No21339RD "Modelling the expansion of an urticating pest with regard to climate change". (2009 – 2010). 12. Regional Project: Implementation of Fruit and Vegetable Yields through the Diffusion of Sustainable Production Systems in 5th Balkan Countries. <i>Founded by the Italian Government, Law 84/2001. Year 2005</i> 13. UNDP/GEF Project. Ecological alternatives of greenhouse production in Albania. 2004 14. Scientific research Project financed from The Ministry of Agriculture and Food (2001-2003) 15. Scientific research Project financed from The Ministry of Agriculture and Food (1997-2000)
PROFESSIONAL MEMBERSHIP	1. Dutch Entomological Society (Nederlandse Entomologische Vereniging, June 2026. Membership number is 7311. 2. RES (Royal Entomological Society) of United Kingdom (2011) 3. EurSafe (European Society for Agriculture and Food Ethics) 4. ISPI (International Society for Pest Information) 5. IPE (International Professor Exchange) 6. ISFAE (International Society of Food, Agriculture and Environment) 7. BPPS (Balkan Plant Protection Society (që prej krijimit të saj) 8. IAPPS (International Association for Plant Protection Sciences (viti 2005) 9. IWGO (International Working Group of Ostrinia and other Maize Pests) 10. Organic Agriculture Society of Albania (BIOADRIA)
AWARDS	A Medal from the President of The National Assembly of Albania for DISTINGUISHED WORK IN AGRICULTURAL ECONOMY (July, 1986)

July, 2026
